

SOLAR ENERGY SYSTEMS

- Economic
- Easy Installation
- Independent
- Eco Friendly

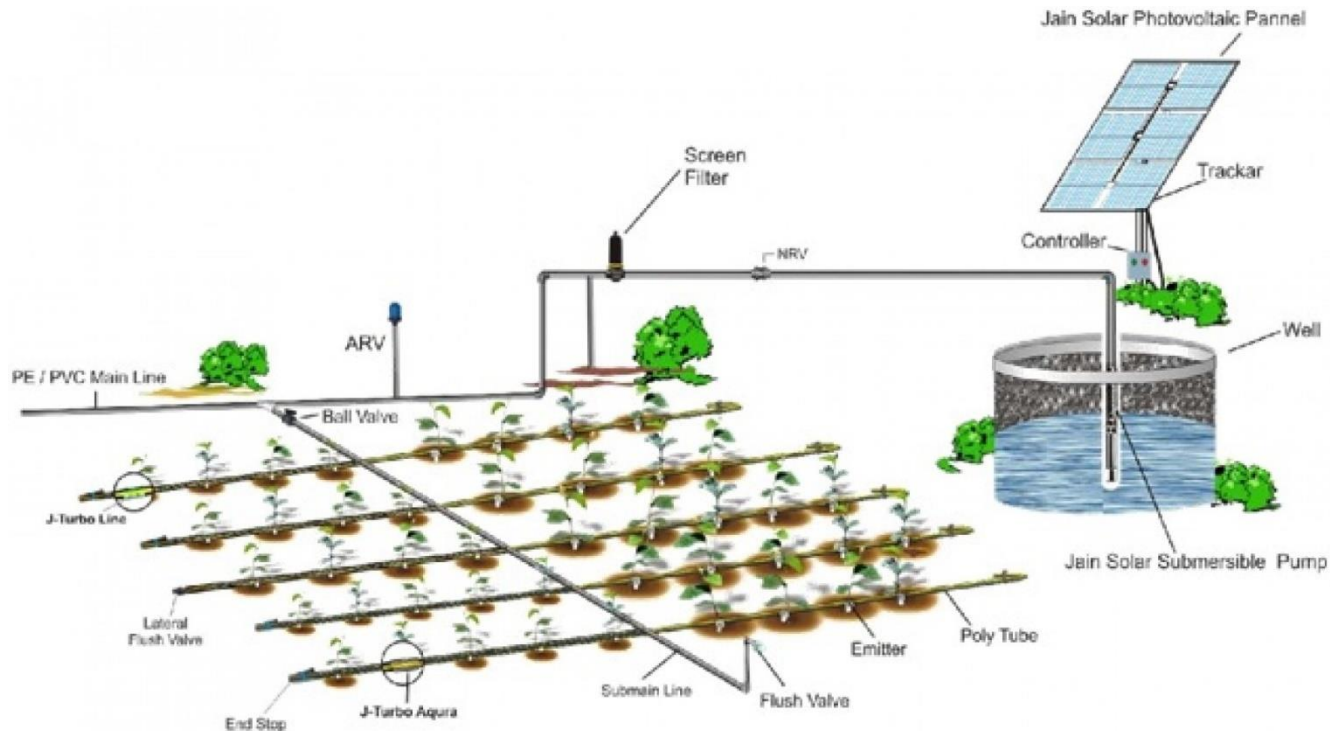

SOLAR PUMPING

Advantages of Solar Energy Irrigation Systems

- It works independently of the network.
- Maintenance-operation cost is close to zero.
- Electrical losses are minimal.
- There is no need to use long cabling and generators.
- It can be used for a long time.
- Easy, simple and practical installation.
- Modular and scalable.
- Mobile application is possible.
- Ecologically friendly.

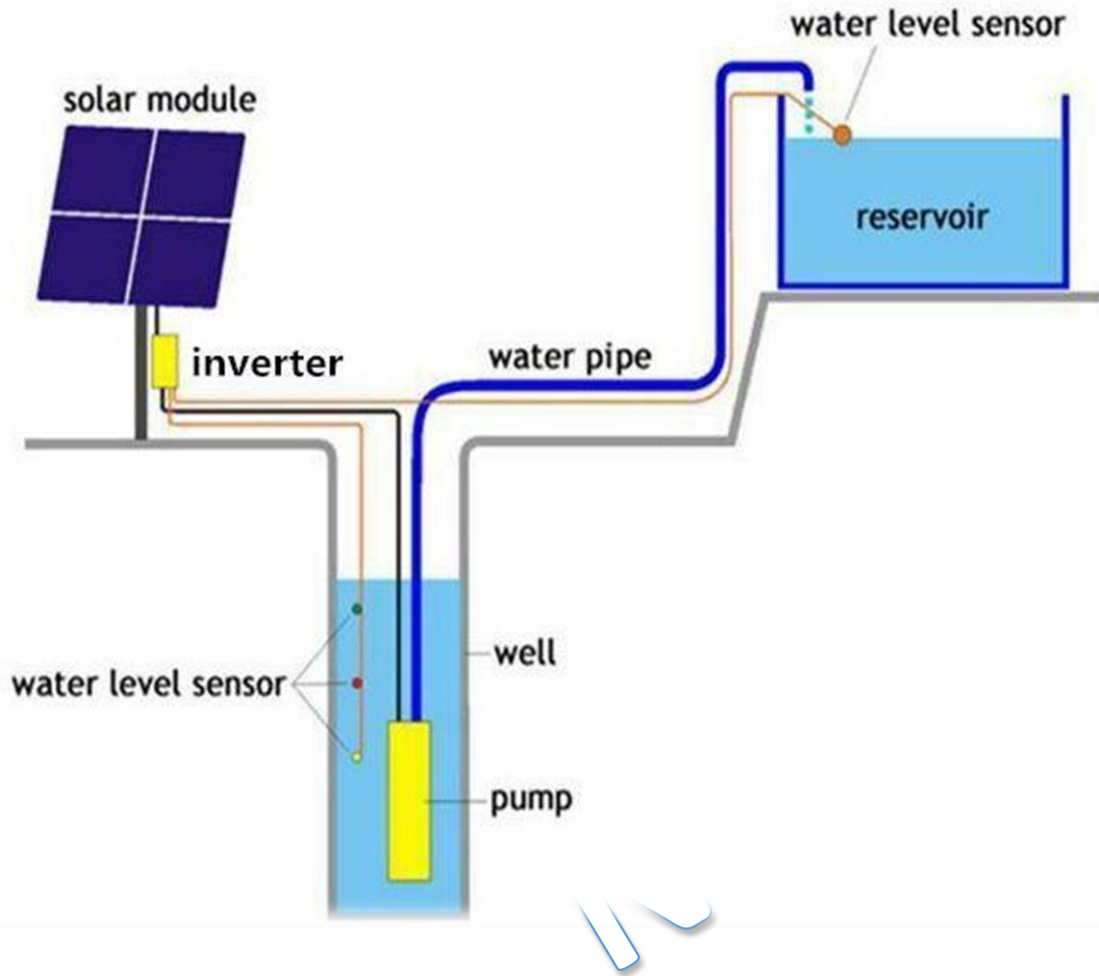

Solar Irrigation Systems

- Solar panel groups
- Solar pumping inverter
- Submersible pump
- Water level sensors
- Cable, connector equipment
- Insurance
- Terminals

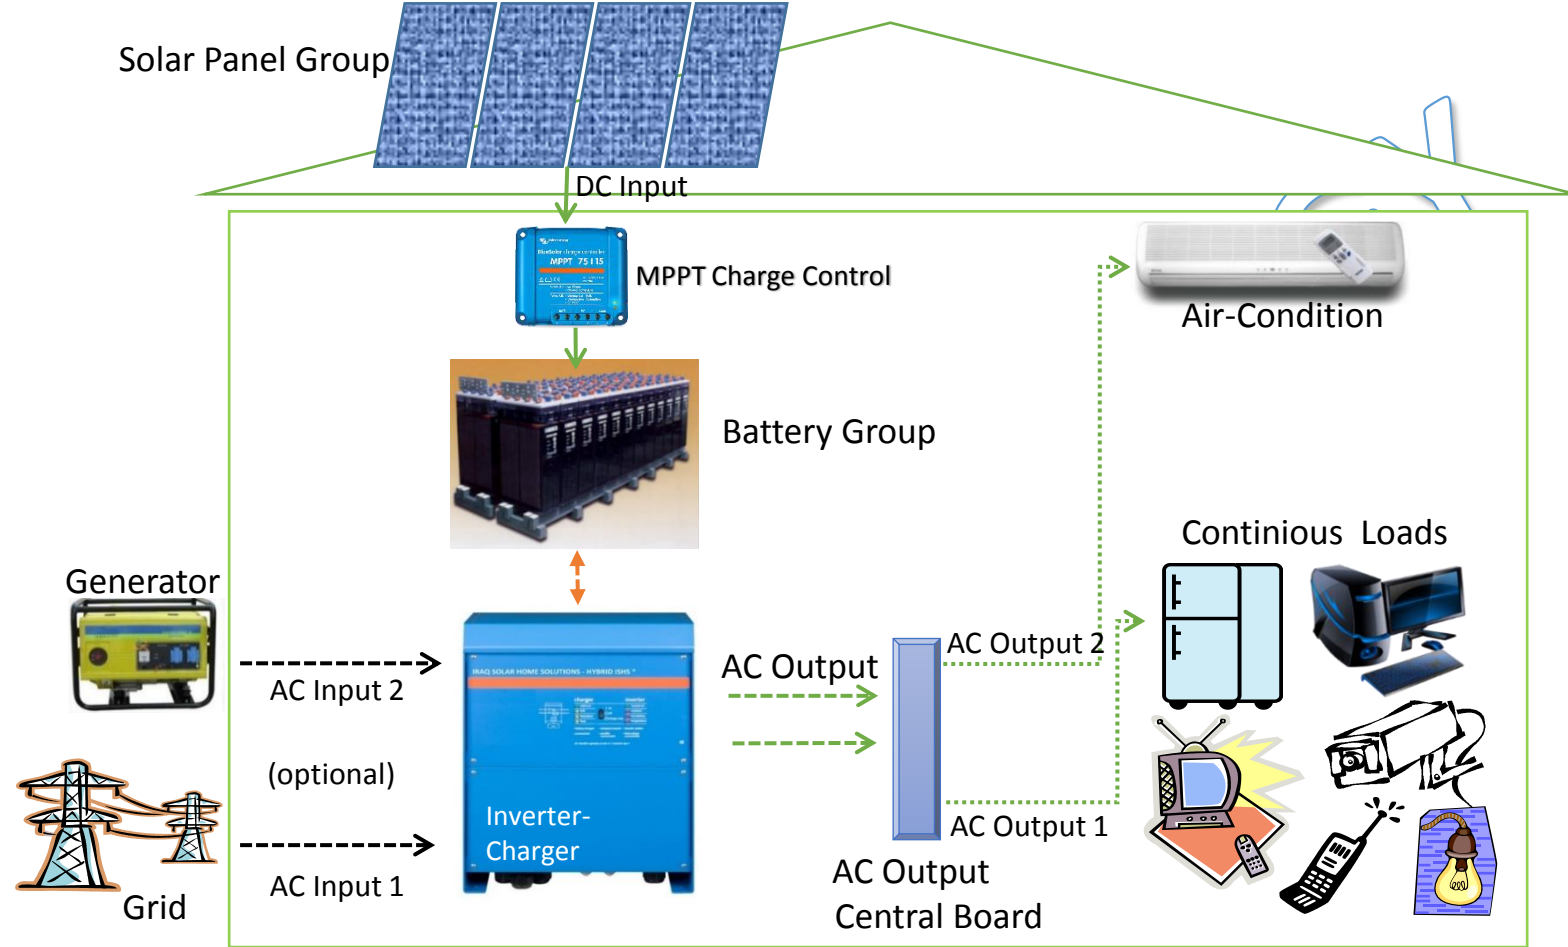

SOLAR WATER PUMPING SYSTEM

- Agricultural Watering
- Watering of Animals
- Domestic Water
- Clean Drinking Water Pumping
- Water Purification

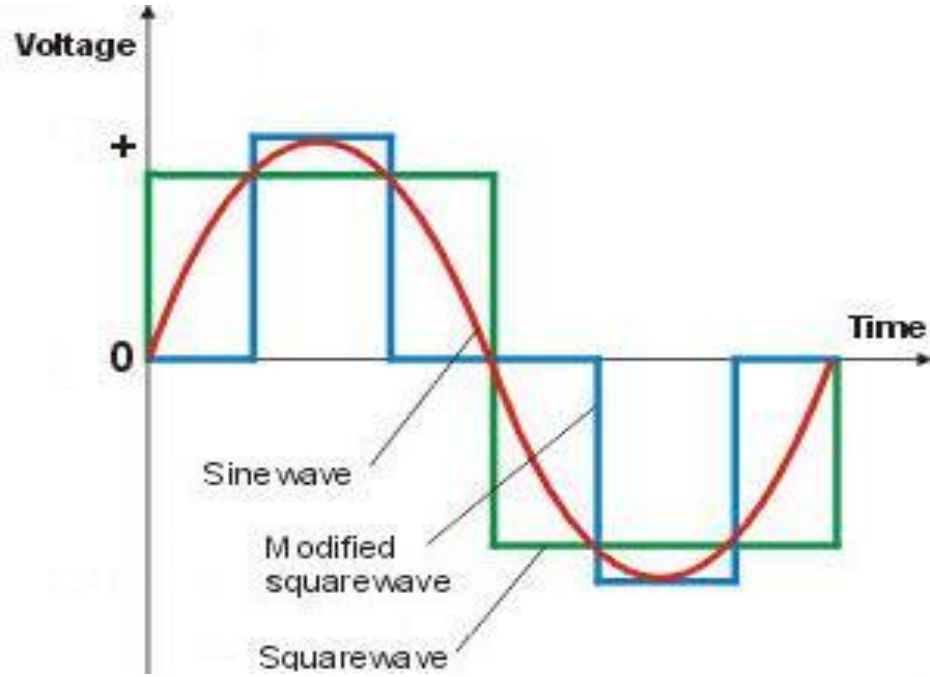

SOLAR ELECTRICITY

DIAGRAM OF THE NORM SOLAR SOLUTIONS - HYBRID ANSS®

Akademi**

Solar System Materials

- Solar Module
- MPPT Charge Control
- Inverter
- Gel Battery
- Solar Cable ve Connector
- Metal Construction
- A "Control Color GX" control screen

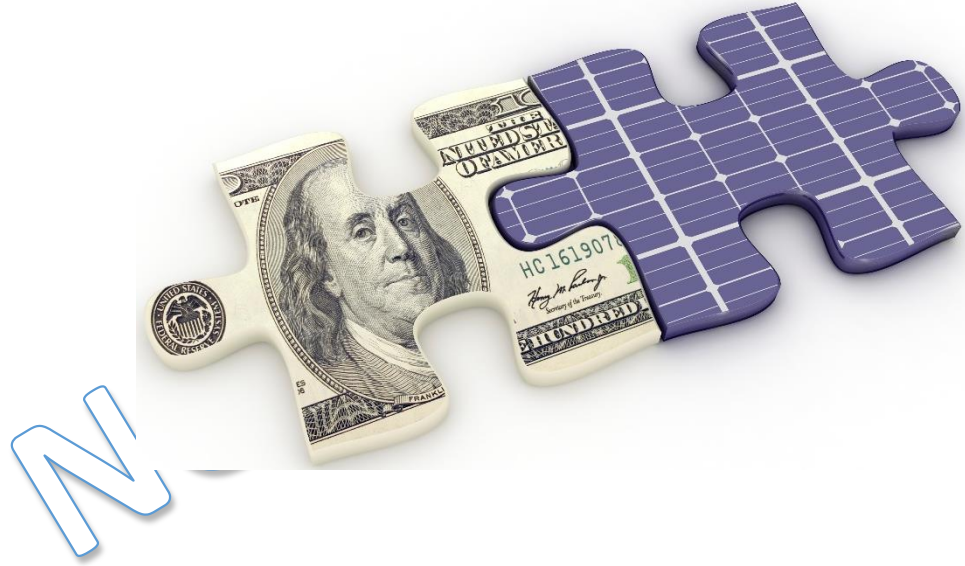

SOLAR LIGHTING

Solar Energy Intelligent Lighting Poles

- **LED** products, **MPPT** featured charge control.
- All the energy needed for lighting can be obtained from the sun.
- High-efficiency panels that can work even in the harshest weather conditions work at a working ambient temperature of -20°C to $+65^{\circ}\text{C}$.
- Reliable, trouble-free, long-lasting...
- Even during winter days without sun, with 1 day of charge it can provide up to 3 days of lighting.
- Fast, easy, professional installation.
- Maintenance and service costs are low...
- It has dimming and timer features.

Engineering and Planning, Purchasing and Logistics, Construction and Installation (EPC) Services and Solution Partnership.
